

Anodized Solid Copper Sheet Plate 4x8 Corrosion Resistant

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: jinshunlai
- Certification: IOS
- Model Number: 0.1mm-900mm
- Minimum Order Quantity: 1kg
- Price: contact us
- Delivery Time: 5days
- Payment Terms: L/C, T/T , Western Union,D/P
- Supply Ability: 90000ton

Product Specification

- Color: Red Yellow
- Highlight: **Anodized Solid Copper Sheet,
4x8 Solid Copper Sheet,
Anodized 4x8 copper sheet**

Product Description

Product Description:

Copper Sheet Plating is made from high quality copper material, which provides superior strength and durability. The length ranges from 1000mm to 6000mm and is available in various material grades. It is highly resistant to corrosion and has excellent durability. The surface can be polished, bright, anodized, galvanized, etc., for a wide range of applications. The package is available in standard export package, which ensures safe delivery of the product. We accept payment terms like T/T, L/C, etc., for the convenience of customers. Copper Sheet Corrugating and Copper Sheet Galvanizing are also available to meet different customer requirements. Our products also have excellent electrical and thermal conductivity, making them ideal for various industrial applications.

Features:

Product Name: Copper Sheet Plate

Package: Standard Export Package

Material: Copper

Shape: Sheet Plate

Width: 1000mm-3000mm

Length: 1000mm-6000mm

Specialty: Copper Sheet Plating, Copper Sheet Stamping, Copper Sheet Laminating

Technical Parameters:

Property	Detail
Width	1000mm-3000mm
Surface	Polished, Bright, Anodized, Etc.
Tolerance	±0.01mm
MOQ	1 Ton
Package	Standard Export Package
Length	1000mm-6000mm
Material	Copper
Payment Term	T/T, L/C, Etc.
Thickness	0.1mm-200mm
Shape	Sheet Plate
Specialty	Copper Sheet Galvanizing, Copper Sheet Rolling, Copper Sheet Cladding

Applications:

Copper Sheet Plate: A Versatile and Durable Material

Copper sheet plate is made from a durable and versatile material, copper. It can be used in a variety of applications such as galvanizing, perforating, laser cutting, and more. Copper sheet plate is available in many different thicknesses, ranging from 0.1mm to 200mm, with a tolerance of ±0.01mm. The copper sheet plate is available in various model numbers, including C10100, C10200, C10300, C10400, C10500, C10700, C10800, C10910, C10920, C10930, C11000, C11300, C11400, C11500, C11600, C12000, C12200, C12300, C12500, C14200, C14420, C14500, C14510, C14520, C14530, C17200, C19200, C21000, C23000, C26000, C27000, C27400, C28000, C33000, C33200, C37000, C44300, C44400, C44500, C60800, C63020, C65500, C68700, C70400, C70620, C71000, C71500, C71520, C71640, and C72200. It is also available in a variety of surface finishes, such as polished, bright, anodized, and more. The copper sheet plate is packaged in standard export packages and originates from Jiangsu Wuxi.

Copper sheet plate is a great choice for a variety of applications, from galvanizing to laser cutting. It is a durable and versatile material, with a wide range of model numbers and surface finishes available. With its tolerance of ±0.01mm, it is suitable for a variety of projects. It is also available in a standard export package, and originates from Jiangsu Wuxi.

If you're looking for a versatile and durable material for your project, copper sheet plate is the perfect choice. With its wide range of model numbers and surface finishes, it is suitable for a variety of projects. It is also packaged in standard export packages and originates from Jiangsu Wuxi. With its tolerance of ±0.01mm, it is a great choice for your project.

Customization:

Custom Copper Sheet Plate Service

We provide custom copper sheet plate service of the following brand name and model numbers: C10100, C10200, C10300, C10400, C10500, C10700, C10800, C10910, C10920, C10930, C11000, C11300, C11400, C11500, C11600, C12000, C12200, C12300, C12500, C14200, C14420, C14500, C14510, C14520, C14530, C17200, C19200, C21000, C23000, C26000, C27000, C27400, C28000, C33000, C33200, C37000, C44300, C44400, C44500, C60800, C63020, C65500, C68700, C70400, C70620, C71000, C71500, C71520, C71640, C72200.

Our copper sheet plate services include copper sheet corrugating, copper sheet cladding, copper sheet stamping, copper sheet perforating, copper sheet rolling, etc. The minimum order quantity is 1 ton, and the materials are copper with various thickness from 0.1mm to 200mm.

We are located in Jiangsu Wuxi and provide quality assurance for all our copper sheet plate services.

Support and Services:

Copper Sheet Plate technical support and services include:
Advice and recommendations on the best materials and process for individual applications
Custom fabrication of copper sheet/plate to customer specifications
Cut to size services for copper sheet/plate
In-house bending, rolling and forming of copper sheet/plate
Stock management services
Supply chain management solutions
In-house machining and finishing of copper sheet/plate
Testing and certification of copper sheet/plate
Delivery services

Packing and Shipping:

Copper Sheet Plates are typically packaged in a wooden crate, covered with a protective plastic sheet, and secured with a rubber band. The crate is then placed inside a cardboard box and secured with tape. The box is then labelled with the customer's shipping address, and the product's weight and dimensions.
The box is then loaded onto a pallet and secured with shrink-wrap, and a label with the customer's address is affixed to the pallet. The pallet is then loaded onto a truck or freight train, and delivered to the customer's location.
